Excellent picross with occasional minipuzzles of various types. Helpful touches like highlighting of the cursor's row and column, faded clue numbers for solved groups, disappearing clue numbers for solved rows and columns, and powerups. A bit more difficult than the previous Arizona Rose game; some puzzles are impossible to begin without guessing and risking a mistake, unless one uses a powerup. And if I recall correctly, it advances more quickly to the 20 by 20 board than the previous game does. Hint: Move the cursor while holding a mouse button to select multiple cells (shows selection count too!). While doing so you may click the other button to cancel the selection, so it's handy for counting cells.. Excellent picross with occasional minipuzzles of various types. Speaking of, there are a few HO scenes included here and there.. Pretty Nice Puzzle Game. Without any discount a little bit expensive but the developer made a good job to create an addiction puzzle fun factor. With achievements and trading cards to collect the prize is okay (Summer Sale Action) Bei Puzzlespielen bin ich immer skeptisch. Meistens langweilt es mich nach 1 Stunde wenn sich kein guter Suchtfaktor einstellt (z.B. leicht erreichbare Errungenschaften oder leicht durchzuspielene Levels) Bei dem Spiel ist es nicht so. Gute Sounduntermalung und schlampigkeitsfehler werden mit dem Nichterreichen der Errungenschaften (Fehlerfrei 0-1) bestraft. Der Vollpreis ist etwas zu teuer angesetzt aber dennoch zahlt es sich aus. Die Entwickler haben keine Mühe gemacht das Spiel gut umzusetzen.. Pretty decent Picross clone, though the "story" is as bonkers as any old Hidden Object game. Speaking of, there are a few HO scenes included here and there.. Same as the other Arizona Rose game.you like these types of puzzles, you'll like these. If not, you won't. Not much else to say about it. The game-killer for me came when a pop-up ad interrupted my game, which leads to an automatic deletion when that happens, so be warned of that as well. This is the reason for the low play time, if anybody cares.. Pretty Nice Puzzle Game.
